

Capability Statement

A-MAC
DEFENSE SOLUTIONS

Core Competencies

CYBER SECURITY: Our cyber security solutions are designed to protect your organization's most valuable assets. We employ sophisticated security measures to ensure your data is always safe and secure.

COMMUNICATION SECURITY: Our program denies unauthorized persons access to information derived from telecommunications of the U.S. Government concerning national security, and we ensure the authenticity of such telecommunications.

INDUSTRIAL SECURITY: Our industrial security program is a multi-disciplinary program focused on the protection of your classified information developed by or entrusted to U.S. Industry operating under the National Industrial Security Program (NISP).

INFORMATION SECURITY: Our information security program is designed to protect your sensitive data and information systems from unauthorized access, use, disclosure, disruption, modification or destruction. Our primary mission is to ensure the confidentiality, integrity, and availability of information while adhering to regulations and managing security risks.

OPERATION SECURITY: We protect our customers critical information and prevent sensitive data from falling into the wrong hands. We focus on making it difficult for adversaries to learn about the customers plans, intentions and vulnerabilities.

PERSONNEL SECURITY: We ensure that the customers employees granted access to sensitive information and resources are trustworthy and reliable, minimizing the risk of harm or compromise to the company. We achieved this through rigorous background investigations, vetting processes, and ongoing monitoring of individuals' conduct.

PHYSICAL SECURITY: We safeguard our customers assets from physical threats. We deter, detect, and respond to potential hazards, creating a secure environment for facilities, information, people, and property. Adhering to security zone requirements and industry and government standards for physical security.
